BORDER RURAL DISTRICT COUNCIL

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

and

CHIEF PUBLIC HEALTH INSPECTOR

FOR THE YEAR

1966

HEALTH DEPARTMENT STAFF, 1966

●

F. S. ROGERS, M.B., Ch.B., D.P.H., Medical Officer of Health.

J. HILL, Cert.S.I.J.B., Meat and Food Inspector's Certificate.
Chief Public Health Inspector and Housing Officer.

H. WILSON, Cert.S.I.J.B., M.R.S.H., Meat and Food Inspector's Certificate. Deputy Chief Public Health Inspector and Housing Officer.

P. WILSON, Cert.P.H.I.E.B., Meat and Food Inspector's Certificate. Additional Public Health Inspector.

D. R. BOTTOMLEY, Dip.P.H.I.E.B. Additional Public Health Inspector.

H. J. HILL, Trainee Public Health Inspector.

BORDER RURAL DISTRICT COUNCIL

3/7 Victoria Place,

Carlisle.

October, 1967.

To the Chairman and Members of the
Border Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I beg to submit my Annual Report on the Health of the community for the year 1966.

Housing, Food Hygiene and other Sanitary matters are dealt with in the report of Mr. Hill, the Chief Public Health Inspector and Housing Officer. I am pleased to include reports from Mr. Skerry, the Council's Engineer and Surveyor, and from Mr. Milroy, the City of Carlisle Water Engineer.

My thanks go to members of the Council, to my colleagues in other departments of the Council and also to all members of the Health Department for their constant help and co-operation.

I am, Ladies and Gentlemen,

Your obedient servant,

F. S. ROGERS,

Medical Officer of Health.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area of District in Acres	...	...	...	...	248,860
Registrar General's estimate of resident population at mid-year 1966	...	...	...	...	31,060
Number of Inhabited houses (according to Rate Book)	...	...	...	...	9,196
Rateable Value	...	...	...	...	£1,129,425
Sum represented by a penny rate	...	...	...	...	£4,564

Population

There was a population decline of 180 between mid 1965 and 1966. Of this total there was a movement out of the area of 170 service personnel leaving a decrease of 10 in the civilian population. The following table gives the population figures for the past ten years:—

1957	...	29,980	Civilian & Service Personnel
1958	...	29,440	„ „ „
1959	...	30,660	„ „ „
1960	...	29,645	„ „ „
1961	...	29,480	„ „ „
1962	...	30,190	„ „ „
1963	...	30,740	„ „ „
1964	...	31,240	„ „ „
1965	...	31,240	„ „ „
1966	...	31,060	„ „ „

VITAL STATISTICS

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

Laboratory Services.

Any necessary investigations or consultations have been through the Public Health Laboratory at the Cumberland Infirmary under the direction of Dr. Inglis, Consultant Pathologist, and Dr. D. G. Davies, Consultant Bacteriologist. I would like to express my sincere thanks for all their help and co-operation.

Ambulance, Nursing Facilities and Welfare Clinics.

These are provided under the direct control of the Cumberland County Council.

SANITARY CIRCUMSTANCES OF THE AREA

Sewerage

I am indebted to Mr. W. Skerry, Engineer and Surveyor, for the following report on sewerage and housing matters:—

Wetheral Pasture Sewerage and Sewage Disposal.

Work on this scheme was completed by February, following which connections were able to be made to the system.

Aglionby Sewerage and Sewage Disposal.

Permission to proceed with this scheme was given by the Ministry and tenders for the work invited.

Commencement of the work was put in hand by August. Completion is likely in 1967.

Newtown and Irthington Sewerage & Sewage Disposal.

Work on design for this scheme has been held up by the Ministry. By the end of the year permission to prepare detail drawings had been given and these will be put in hand early 1967. It is not known, however, when these are completed, whether permission to carry out the work will be granted due to restrictions on capital expenditure.

Wetheral and Great Corby Sewerage and Sewage Disposal.

An outline scheme for the above was investigated by an inspector from the Ministry in August.

By the end of the year approval thereto had still not been received.

Heads Nook Sewerage and Sewage Disposal.

An outline scheme was prepared by the end of the year. It will probably be submitted to the Ministry early in 1967 following completion of statutory consultations.

Walton Sewerage and Sewage Disposal.

An outline scheme for the above village was submitted to the Minister in September.

A reply during December approved the scheme from the design aspect, but because of restrictions on borrowing would not allow construction of the scheme to proceed.

NEW HOUSING

New houses erected by private enterprise:—

(a) Number approved during the year	...	...	95
Number completed during the year	...	...	98
Number under construction at the end of the year	...	...	92

Alterations and improvements to existing houses:—

(b) Number approved during the year	...	...	122
Number completed during the year	...	...	83

No. of visits and inspections carried out by Building Inspector during the year:—

(a) New houses	...	...	...	...	395
Improvements and extensions to houses	...	...	...	...	276
Farm Buildings, etc.	...	...	...	...	211
Miscellaneous	...	...	...	...	118

Water Supplies.

I am indebted to Mr. Milroy, the City of Carlisle Water Engineer, for the following report on Water Supplies in the Border District:—

Analysis of Water Samples During Year 1966/67

Source of Sample	No. of Samples Taken	Satis- factory	Suspicious	Unsatis- factory	Percentage of Satisfactory Samples taken
Cumwhinton Storage	53	52	1	—	98%
Cumwhinton Works	53	51	2	—	96%
Castle Carrock Raw	37	20	10	7	54%
Castle Carrock Final	54	51	3	—	94%
Crew Fell Final	18	13	4	1	72%
Cowran Cut	18	15	3	—	83%
Cumwhitton	16	13	1	2	81%
Brampton	14	12	1	1	86%
Banks	19	12	5	2	63%
Longtown	19	14	3	2	76%
Hethersgill	18	12	6	—	66%
Walton	15	15	—	—	100%
Low Row	16	11	4	1	69%
Hallbankgate	16	13	1	2	81%
Roughton Gill	18	18	—	—	100%

During the year 384 samples were taken for bacteriological examination from the sources which supply the City and the rural district.

The results are generally satisfactory, bearing in mind the amount of treatment that is within reasonable economic limits. It is surprising to find any shallow spring sources giving 100% satisfactory results as has the Walton supply

from Spout Bank this year. The samples of Castle Carrock raw water have given even better results than last year, over half being fit for supply, from a bacteriological aspect, without treatment.

Distribution.

Throughout the year considerable use has been made of the plastic sponges for the cleaning of water mains and, in particular, the work done in the Rockcliffe/Metal Bridge areas shows a noticeable improvement in both quality and quantity.

Difficulty has been experienced in some of the rural areas in maintaining supplies during the year, and investigation has shown that there is a marked increase in consumption due to changes in farming techniques. Some farms have introduced more intensive stock rearing schemes resulting in increased consumption drawing heavily on inadequate distribution systems.

From time to time throughout the year it has been necessary to cross-connect by temporary pipe-line from one distribution system to another, but this could only be done when difficulties were temporary and provided there was no common shortage.

INFECTIOUS DISEASES

There were no outbreaks of infectious diseases worthy of special comment during 1966.

The table below shows the number of infectious diseases notified during 1966 compared with the previous ten years.

	1956	1957	1958	1959	1960	1961	1962	1963	1964	1965	1966
Measles	25	688	8	313	40	571	37	271	77	492	294
Scarlet Fever	2	3	8	26	9	10	6	—	2	2	10
Whooping Cough	31	71	1	—	54	1	7	1	15	—	36
Pneumonia	17	18	—	16	7	2	2	1	2	—	1
Dysentery	16	—	40	4	1	9	58	—	—	62	3
Food Poisoning	4	1	3	2	1	1	—	6	—	5	—
Meningococcal Meningitis	—	—	1	—	—	—	—	—	—	—	—
Puerperal Pyrexia	—	1	1	—	1	1	2	1	—	—	1
Acute Poliomyelitis	—	1	1	—	1	1	—	—	—	—	—
Erysipelas	—	1	1	—	1	—	—	—	—	—	—
Acute Encaphalitis Post Infectious	—	1	—	—	—	—	—	—	—	—	—
Paratyphoid Fever	—	—	—	—	—	—	—	—	1	4	—
TOTALS ...	99	785	63	361	114	595	112	280	97	566	345

Tuberculosis.

There were 8 new cases added to the register in 1966 all of these being under the supervision of the Chest Clinic.

NATIONAL ASSISTANCE ACT 1948, SECT. 47.

No action was necessary under this Act during 1966.

**REPORT OF THE
CHIEF PUBLIC HEALTH INSPSECTOR
AND HOUSING OFFICER**

For the Year ended 31st December, 1966

To the Border Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I beg to submit my annual report for 1966. It has been a year of quiet progress in all fields. My chief disappointment is that poor progress in new housing in recent years has slowed down activity in slum clearance. However, the measures taken to acquire land for houses and the appointment of architects should show results in the not too distant future.

I must thank the Council for the help they have given to the work of the department and also thank the Medical Officer of Health for his constant support. Not least I must thank my assistants for the conscientious way they have carried out their duties.

HOUSING

New Building

During the year 139 houses were built, 41 by the Council and 98 privately. Comparison with the previous four years is given below:—

Year		Council	Private	Total
1962	...	4	192	196
1963	...	36	200	236
1964	...	75	87	162
1965	...	29	83	112
1966	...	41	98	139
Total for 5 years		185	660	845

The 41 houses built by the Council during the year were all at Warwick Bridge and comprised 8 aged persons' bungalows, 20 two-bedroom flats, of which four were to the "Parker Morris" standard, and 17 three-bedroom houses of which six were to the "Parker Morris" standard.

The number of houses built was far from satisfactory in view of the waiting lists. Seventeen houses were under construction at Scotby and a further 30 will be commenced early in 1967 at Longtown. Architects have been appointed for the development of an estate of approximately 100 houses at Brampton, but it is doubtful if work will commence in 1967. Negotiations are going on for the acquisition of further land at Little Corby and small sites at Houghton, Low Crosby and Longtown.

IMPROVEMENT GRANTS

Discretionary Grants	1966	1965
Applications Received	21	28 (30 houses)
Applications Approved	25 (26 houses)	31 (34 houses)
Improvements Completed	33 (35 houses)	32 (37 houses)
Value of Works Approved	£33,976. 5.4d.	£41,161.9.9d.
Value of Grants Approved	£9,292.10.0d.	£12,841.5.0d.

Standard Grants

Applications Received	48	45
Applications Approved	49	44
Improvements Completed	32	46

As in the previous year discretionary grants declined in respect of new applications received but standard grant applications remain fairly steady. I can only conclude that there is a shortage of capital to finance the "major renovation" type of improvement. Every opportunity is taken by officers of this department to encourage the improvement of older houses and a good deal of advice is given on technical problems.

Since the coming into force of the Housing Act 1949, discretionary grants have been paid on the improvement of 450 houses, and standard grants have been paid in respect of 297 houses. (Standard grants were introduced by the House Purchase and Housing Act, 1959).

This figure of 747 houses improved represents about 8% of the houses in the district which is some way short of the number requiring improvement, (probably of the order of 20% of the total housing stock).

SLUM CLEARANCE

Clearance Areas (Section 42 Housing Act 1957)

No clearance areas were declared during the year.

Individual Unfit Houses (Section 9 & 16 Housing Act 1957)

No notices were served under Section 9 during the year.

Under Section 16 the following action was taken:—

Houses represented as unfit	40
Notices served under Section 16	16
Demolition Orders made	5 (23 houses)
Closing Orders made	13
Undertakings to carry out works accepted	9
Closing Orders converted to Demolition Orders	1
Demolition Orders converted to Closing Orders	1
Closing Orders revoked on property made fit	2
Demolition Orders revoked on property made fit	2
Persons displaced	73
Houses actually demolished	7
Council owned property demolished	14

Overcrowding.

Statutory overcrowding is not a problem of any size in this district although cases occasionally come to light. In practically all cases they are rehoused by the Council. Sometimes there are delays in rehousing especially if larger type houses are required.

Housing Management

During the year 75 families were housed by the Council, 34 of which were to fill casual vacancies. Comparison with previous years is given below:—

Year	New Houses	Casual Vacancies	Total
1962	4	42	46
1963	36	34	70
1964	75	29	104
1965	29	51	80
1966	41	34	75
	185	190	375

In addition to the new families housed, 25 families were transferred to accommodation more suited to their needs. All transfers were made on a voluntary basis.

One family was evicted from a Council house for persistent rent arrears.

Work is now in progress on the improvement of the pre-war Council houses. This included complete electrical re-wiring, provision of wash basins, sink units, new grates and in some of the older types plastering of unplastered walls.

Public Health

Forty-six Informal Notices were served under the Public Health Acts, but no Statutory Notices were served.

Drainage and Water Closets

New drainage schemes and water closets have been provided at 48 premises of which 14 are to Council Sewers and 34 to Septic Tanks. In addition 16 drainage systems were disconnected from Septic Tanks and connected to Council Sewers.

Caravans

Nine sites were licensed under the Caravan Sites and Control of Development Act, 1960, at the end of the year.

Two sites are for holiday and touring caravans, the remainder are single residential caravans. Forty-seven visits were made during the year.

Scrap Metal Dealers Act 1964

No new applications for registration were received. Four visits were made during the year to Dealers' premises.

Refuse Collection

No change was made in the refuse collection service during the year. The report of the Government Working Party is awaited with interest and no changes will be suggested until this has been received. A growing body of opinion no longer accepts the kerbside collection as being adequate. With this view I have a great deal of sympathy especially as hardship is caused to elderly or infirm people. This system is, however, cheap and an improved method will undoubtedly result in very much increased costs.

STATEMENT OF EXPENDITURE AND INCOME

REFUSE COLLECTION AND SALVAGE

Year Ended 31st March, 1967.

Expenditure	Collection	Disposal	Salvage	Total	(1966/67)
Wages	9,193	1,576	261	11,030	11,162
Vehicles	4,829	413		5,242	5,827
Refuse Tips		543		543	307
Advertising	38			38	31
Depot	728	125	21	874	832
Other expenses	508	201		709	657
	£15,296	£2,858	£282	£18,436	£18,816

Income:	Total	(1966/67)
Salvage 	124	136
Miscellaneous Income 	242	284
	£366	£420

FOOD

Slaughterhouses and Meat Inspections.

One small Slaughterhouse is operating within the district. It is used by one butcher only. The remainder of the meat for the district is supplied from Carlisle Slaughterhouse.

Inspection of Meat 1966

			Cattle excluding Cows	Cows	Sheep and Lambs	Pigs
Numbers Inspected	...		244	—	633	1
All diseases except Tuberculosis:						
Whole carcasses condemned			1	—	1	—
Part of carcass or organ condemned	...	...	75	—	45	—
Percentage	...	...	31.15	—	7.27	—
Tuberculosis only	...	...	—	—	—	—
Cysticercus Bovis only:						
Carcasses condemned	...		—	—	—	—
Carcasses submitted for re- frigeration	...	...	1	—	—	—
Percentage	...	...	0.41			

A total of 1,562 lbs. of meat was condemned.

MILK AND DAIRIES REGULATIONS 1959

Milk (Special Designations) Regulations 1960

Thirty-two dairymen are registered as distributors under the above Regulations.

All are licensed by the County Council to sell designated milk, the Council acting as their agents in administering the provisions of the Special Designations Regulations.

There is one small pasteurising plant in the district.

Milk Samples

Total samples taken 255, as follows:—

	Samples	Satisfactory	Unsatisfactory
Untreated Milk	225	207	18
Pasteurised Milk	30	29	1
Sterilised Milk	—	—	—

Ice Cream

Eight ice cream samples were taken, two of which were unsatisfactory. In the case of the unsatisfactory samples “follow up” action was taken. Thirty-four visits were made to ice cream premises in accordance with the Regulations.

Poultry Packing Stations

There are four small poultry packing stations operating within the district. A greater degree of control is now being exercised over these premises and regular inspections have been carried out throughout the year.

Unsound Food

The following amounts of foodstuffs were condemned during the year:—

Tinned Meat	...	...	368 lbs.
Tinned Vegetables	...	...	4 lbs.
Tinned Fruit	...	...	20 lbs.
Tinned Milk	...	...	2 lbs.
Total	...	...	<u>394 lbs.</u>

Court Proceedings

Two prosecutions were taken during the year under Section 2 of the Food and Drugs Act, 1955, both following complaints of foreign bodies in food.

The first case was that of metal in sausage and the second that of a fly in a tin of creamed rice.

In both cases the magistrates imposed fines of £5 with £5 costs.

FACTORIES ACT 1961

1. The following details are given of factories in the area and inspections made:—

Premises	Number on Register	Inspection	Number of Occupiers	
			Written Notices	Prosecuted
(i) Premises in which Sections 1, 2, 3, 4 & 6 be enforced by L.A.	11	4	—	—
(ii) Factories not included in (i) in which Section 7 is enforced by L.A.	83	34	—	—
(iii) Other premises in which Section 7 is enforced by L.A. (Excluding Outworkers premises)	140	—	—	—
	234	38	—	—

2. Cases in which defects were found — 1.
3. Under part VIII of the Act there were no outworkers.

Offices Shops and Railway Premises Act, 1963.

Sixty-eight premises are registered under this Act employing a total of 271 persons. Seventy-two inspections were made of premises and 10 notices were served in respect of contraventions.
